

Wyse Technology End User License Agreement (“License”)

IMPORTANT – READ CAREFULLY.

THIS LICENSE IS A LEGAL DOCUMENT setting forth the terms under which Wyse Technology Inc. (“Licensor”) and its licensors and suppliers (collectively referred to as “Third Party Suppliers”) are willing to license to you software which is owned by Licensor and/or its Third Party Suppliers, who are intended third party beneficiaries under this License.

- 1. Acceptance.** You have acquired a Wyse-manufactured device (“Device”) that includes software, some of which is licensed by Licensor from Third Party Suppliers. Licensor is willing to license to you such included software (“Software”), together with any associated media, printed materials, and “online” or electronic documentation supplied, only if you accept all of the terms contained in this License. Please read this Agreement carefully before unpacking, downloading, installing or using the Software or the Device. By downloading or installing the Software, or unpacking or using the Software or Device, you agree to be bound by the terms of this License. IF YOU DO NOT AGREE TO THESE TERMS, DO NOT USE THE DEVICE OR COPY THE SOFTWARE. INSTEAD, PROMPTLY CONTACT LICENSOR FOR INFORMATION ON RETURN OF THE UNUSED DEVICE AND ALL ACCOMPANYING MATERIALS FOR A REFUND. ANY USE OF THE SOFTWARE, INCLUDING BUT NOT LIMITED TO USE ON THE DEVICE, WILL CONSISTUTE YOUR AGREEMENT TO THIS LICENSE (OR RATIFICATION OF ANY PREVIOUS CONSENT).
- 2. Grant.** Licensor grants to you a non-exclusive right, during the term of this License, to install and/or use the Software, in object code only, solely in conjunction with your Wyse-manufactured hardware Device. You have the right to use this Software by loading it onto a computer containing the capability of transferring the Software (in whole or in part) to the Device. The Software may be used by up to two (2) processors at any one time on the Device. You may permit a maximum of ten (10) computers or other electronic devices (each a “Client”) to connect simultaneously to the Device to utilize the services of the Software solely for file and print services, Internet information services, and remote access (including connection sharing and telephony services). The ten (10) connection maximum includes any indirect connections made through “multiplexing” or other software or hardware which pools or aggregates connections. You may use the Software in this fashion as many times as necessary, so long as such use is always in conjunction with the Device.
- 3. Copyright.** The Software and all related documentation are protected under the laws and treaties of copyright and intellectual property. All title and copyrights in and to the Software (including but not limited to any images, photographs, animations, video, audio, music, text and “applets” incorporated into the Software) and any copies of the Software are owned and retained by Licensor and/or its Third Party Suppliers. You may copy and use the Software and related documentation only as expressly permitted in this License. You must reproduce and maintain all proprietary marks, legends, and copyright notices that appear in or on the Software and related materials, or any portion thereof, on any copies of the Software or related materials that you make or use. Third Party Suppliers named in such copyright notices shall each have the right to enforce provisions of this License.
- 4. Patents.** This Software and/or the associated Wyse product are protected by copyright, international treaties, and various patents, including the following U.S. patents: 6,836,885 and 5,918,039.
- 5. Restrictions.** You may not use, copy, modify, translate or transfer the Software, or any modification thereof, in whole or in part, except as expressly provided for in this License. You may not sell, rent, lend or lease the Software. You may not decompile, reverse engineer, disassemble or otherwise decode or alter the Software, or attempt to do any of the same, except and only to the extent that applicable law notwithstanding this limitation expressly permits such activity. You are licensed to use the Software to provide only the limited functionality (specific tasks or processes) for which the Device has been designated and marketed by Licensor. This license specifically prohibits any other uses of the software programs or functions, or inclusion of additional software programs or functions. Except as otherwise permitted in the NetMeeting/Remote Assistance/Remote Desktop Features terms below, you may not use a Client to use, access, display or run the Software, the Software’s user interface or other executables software residing on the Device.
- 6. Software Transfer.** You may permanently transfer to another party ownership of the Device and equipment, including all of your rights under this License to use the Software, provided you retain no copies, you transfer the entire product (including the Device and Software, all component parts, the media and printed materials, any upgrades, these license terms, and, if applicable, the Certificate(s) of Authority), and the recipient accepts and agrees to the terms and conditions of this License. You may not otherwise sublicense, assign or transfer the Software or ownership of the Device and equipment. If the Software is an upgrade, any transfer must also include all previous versions of the Software.

You may use NetMeeting, Remote Assistance, and Remote Desktop with all Microsoft products; provided however, use of these technologies with certain Microsoft products may require an additional license. For both Microsoft products and non-Microsoft products, you should consult the license agreement accompanying the applicable product or contact the applicable licensor to determine whether use of NetMeeting, Remote Assistance, or Remote Desktop is permitted without an additional license.

- **Client Access Licenses.** If you use the Device to access or utilize the services or functionality of Microsoft Windows server products (such as Microsoft Windows NT Server 4.0 (all editions) or Microsoft Windows 2000 Server (and all further editions such as Windows Server 2003 and Windows Server 2008)), or use the Device to permit workstation or computing devices to access or utilize the services or functionality of Microsoft Windows Server products, you may be required to obtain a Client Access License for the Device and/or each such workstation or computing device.
